11:45 AM Registration opens
12:00 PM VIP LUNCH
12:30 PM Forum Begins
4:30 PM Panel Discussion Featuring Attendees,
Panelists and Maryland Department of Planning

Key information Elected Officials and Planners must have when discussing and deliberating PlanMaryland

“It will not remove local planning and zoning authority.” (PlanMaryland p1-5)
But is that what the details say?

Experts will address PlanMaryland’s
Economic,
Development and
Technical Premises

such as:

- automobiles diminish the wealth of a community
- compact development costs government less
- the Genuine Progress Indicator (GPI) is necessary
- the Plan will greatly contribute to meeting TMDL mandates
- septic systems are the problem; WWTP’s are the answer
- there are great social equity and health benefits to Compact Development;
but suburban development is inequitable sprawl

plus: The Economics of Global Warming: Mitigation at what cost?

**With special guest, Lord Christopher Monckton,
Science Advisor to Prime Minister Margaret Thatcher**
